

12TH

EYES Meeting 2025

- Milan -

Scientific Program

26 - 28 September 2025

Humanitas Congress Center, Rozzano (MI), Italy

Friday - September 26

H 14.00 | Opening

Opening & Welcome from SIE & AME Representative

Gianluca Aimaretti | Diego Ferone | Renato Cozzi

H 14.15 | Opening

Introductory presentation from EYES Members

EYES Committee

H 14.30 | Plenary Lecture

Moderators: Andrea Lania | Gherardo Mazziotti

Speaker: Constantine Stratakis

“ The landscape of OMICS in Pituitary & Adrenal disease ”

H 15.00 | Oral communications Session 1

Pituitary & Neuroendocrinology (EYRC Joint session)

Moderators: Constantine Stratakis | Giampaolo Trivellin | Sabrina Chiloiri

OC 01: The Predictors of Mortality in Patients with Acromegaly: An Old Debate Revisited by Machine Learning – **Cem Sulu (Turkey)**

OC 02: Using genomics to characterize features of aggressiveness in PitNETs – **Nesrine Benanteur (France)**

OC 03: [18F]Fluorethyltyrosine positron emission tomography in corticotroph pituitary adenomas – **Friederike Völter (Germany)**

OC 04: HypoNa-RESCUE: Pilot Insights from a Multicentre Surveillance Study on the Impact of Aetiology on Outcomes in Severe Hyponatraemia – **Samana Rafi (UK)**

OC 05: The clinical risk scores for Cushing's Syndrome overlap with the phenotype of partial lipodystrophies – **Stella Pigni (Italy)**

OC 06: AIP variants among adult patients with acromegaly – **Anna Boguslawska (Poland)**

OC 07: Morning Cortisol and Central Adrenal Insufficiency: New Thresholds from Low-Dose ACTH test and Second-Generation Assay – **Daniela Cuboni (Italy)**

OC 08: Transcription Factor Profiling in Pituitary Adenomas: WHO 2017 versus WHO 2022 Classifications in 115 Cases – A Single-Center Experience – **Iulia Florentina Burcea (Romania)**

OC 09: Long-term, real-life data on glyco-metabolic profiles of patients with acromegaly after Pasireotide LAR dose down-titration – **Flavia Costanza (Italy)**

OC 10: Thoracic Ultrasonography and Pulmonary Function Tests in Assessing Lung Function in Acromegaly: A Prospective Matched Case-Control Study – **Merik Coskun (Turkey)**

Friday - September 26

H 16.30

Coffe Break & Poster Session 1

Poster Discussants: Biagio Cangiano | Mirko Parasiliti-Caprino | Francesco Costantino

H 17.00 | Oral communications Session 2

Bone metabolism, Thyroid & Parathyroid disease

Moderators: Giulia Del Sindaco | Roberto Novizio | Dorota Filipowicz

OC 11: Calcitonin levels in patients with chronic kidney disease: a retrospective monocenter observational study - **Cristina Clausi (Italy)**

OC 12: Stiffness matters: elastography enhances detection of thyroid cancer across histologic subtypes - **Monica Latia (Romania)**

OC 13: Assessment of Adrenal reserve in Overt Hypothyroidism and Incidence of Autoimmune Polyendocrine Syndrome 2 in subjects with Overt Hypothyroidism - **Pappu Sai Subrahmanyam (India)**

OC 14: Brain metastasis in differentiated thyroid cancer: an international multicentric retrospective analysis - **Antonio Prinzi (Italy)**

OC 15: A Novel Synergistic Approach: Indocyanine Green-Based Photodynamic Therapy Combined with Docetaxel for Papillary Thyroid Cancer Treatment - **Derya Sema Yaman Kalender (Turkey)**

OC 16: Evaluating the SPROG Protocol: A Pre-Operative Strategy for Graves' Disease Prior to Thyroidectomy - **Mohammad Zaid Seegoolam (UK)**

OC 17: Retrospective analysis of thyroid cancer cases after radiotherapy in paediatric brain tumour survivors - **Catarina Regala (Portugal)**

OC 18: Safety of Romosozumab in women with cancer and osteoporosis at high risk of fracture - **Alessandro Fanti (Italy)**

OC 19: Bone turnover markers in arginine vasopressin deficiency: a cross-sectional comparison with primary polydipsia and healthy controls - **Emanuele Varaldo (Switzerland)**

OC 20: Effectiveness of bisphosphonates and denosumab on risk of vertebral fractures in prostate cancer patients under androgen-deprivation therapies: a real-world prospective study - **Massimiliano De Simone (Italy)**

Saturday - September 27

H 09.00 | Plenary Lecture

Moderators: Riccardo Pofi | Georgia Colleluori

Speaker: Sadaf Farooqi

“Changing perspective for the management of obesity”

H 9.30 | Oral communications Session 3

Diabetes & Obesity - Medical & nutraceutical approach to glucose metabolism

Moderators: Nazarena Betella | Tamara Dojcinovic | Simona Jaafar

OC 21: Additive effects of semaglutide and peptide YY3-36 dual agonism on HFpEF: Focus on excitation-contraction coupling and mitochondrial function in obese rats - **Niklas Geiger (Germany)**

OC 22: Post-transplant glucose surge: identifying early metabolic risk in non-diabetic renal recipients - **Deniz Turkum Atikcan Simsek (Turkey)**

OC 23: SED1-EPI study: Validation of the results obtained in the DM1-Asturias cohort - **Ana Victoria García Gomez (Spain)**

OC 24: Ethnic Disparities in Outcomes of Diabetes-related Emergencies: A Multicentre Observational Study - **Nevil Chackalaparambil Philip (UK)**

OC 25: Exploring miR-200 Family Expression in Obesity - **Elsa Villa-Fernández (Spain)**

OC 26: 24-hour dynamic metabolic phenotyping in individuals after bariatric surgery - **Ioannis Lempesis (USA)**

OC 27: TMAO and Carotid Intima-Media Thickness: Markers of Metabolic and Vascular Dysfunction in Pediatric and Adult Obesity - **Simina Mihuta (Romania)**

OC 28: Diagnostic Investigation Gaps in Endocrinology: Insights from Simulation-Based Learning via the SIMBA Model - **Sangamithra Ravi (UK)**

OC 29: Genotype Over Phenotype: The Road Less Travelled in Diagnosing Bardet-Biedl Syndrome - **Neha Agrawal (India)**

OC 30: Effects of Liraglutide and Exercise on Liver Function in Middle-Aged Rats - **Dragana Vlahović (Serbia)**

H 11.00

Coffee Break & Poster Session 2

Poster Discussants: Georgia Colleluori | Nazarena Betella | Julia Beck

Saturday - September 27

H 11.30 | Oral communications Session 4

Adrenal & Cardiovascular Endocrinology

Moderators: Chiara Sabbadin | Mirko Parasiliti-Caprino | Karin Zibar

OC 31: Prognostic value of serum inflammation-based scores in localized adrenocortical carcinoma undergoing adjuvant mitotane therapy: a multicenter ENSAT study – **Giacomo Cristofolini (Germany)**

OC 32: Inflammation-Based Scores in Patients with Pheochromocytoma: A Study of 69 Cases – **Meriem Eladla (Marocco)**

OC 33: Liraglutide and Strength-Endurance Training as Modulators of the Stress Axis in Middle-Aged Female Rats – **Ivona Gidzovic (Serbia)**

OC 34: Magnetic Resonance Imaging in Turner Syndrome (TS): Expanding the Scope of Cardiovascular and Renal Diagnostics – **Francesca Paglia (Italy)**

OC 35: Fluctuations in diurnal plasma cortisol cycle in patients treated with Metyrapone or Osilodrostat for endogenous Cushing Syndrome – **Louis Thomeret (France)**

OC 36: Analysis of Predictive Factors of Malignancy in Adrenal Masses: findings a Large Single-Center Surgical Cohort – **Soraya Puglisi (Italy)**

OC 37: 24-hour blood pressure profiles in patients with adrenal insufficiency – **Laura Heger (Germany)**

OC 38: Prevalence and Predictors of Testicular Adrenal Rest Tumors in Adults with Congenital Adrenal Hyperplasia – **Giulia Bovo (Italy)**

OC 39: Exploring tumor-associated macrophages (TAM) polarisation in adrenocortical adenomas – **Rosa Catalano (Germany)**

OC 40: Aldosterone/cortisol ratio as a new marker for diagnosing mild autonomous cortisol secretion (MACS). Investigating the effects of mild hypercortisolism on the renin-angiotensin-aldosterone system – **Filippo Vignali (Italy)**

H 13.00

Lunch Break & Poster Session 3

Poster Discussants: Clara Lazzaretti | Giampaolo Trivellin | Juan Manuel Jimenez-Vacas

Saturday - September 27

H 14.00 | Plenary Lecture

Moderators: Maria Francesca Birtolo | Walter Vena

Speaker: Guillaume Assiè

"Pioneering your path: strategies for early career researchers to thrive"

H 14.30 | Oral communications Session 5

Endocrine related cancers

Moderators: Juan Manuel Jimenez Vacas | Barbara Altieri | Biagio Cangiano

OC 41: Glucocorticoid inhibition enables mono- and bispecific CAR-T cells to overcome immunotherapeutic resistance in adrenocortical carcinoma - **Marc Philipp Schauer (Germany)**

OC 42: Ectopic Cushing's Syndrome (ECS) - a diagnostic challenge. Differences between ECS and Cushing's disease (CD) - European Cushing's Syndrome Registry, ERCUSYN, Kraków - **Aleksandra Gamrat-Żmuda (Poland)**

OC 43: Radiogenomics pilot study in adrenocortical carcinoma: assessing the relationship between genetic background and computerized tomography texture. - **Lorenzo Tucci (Italy)**

OC 44: Therapeutic potential of adavosertib (AZD1775), a WEE1 kinase inhibitor, in advanced adrenocortical carcinoma: focus on molecular changes - **Nevena Dimanova (Germany)**

OC 45: IL-1 β /CXCL12 Axis Drives the Crosstalk Between PanNET Cells and Adipocytes - **Monica Oldani (Italy)**

OC 46: Genetic clusters and Somatostatin Receptor Positron Emission Tomography Imaging Characteristics in Pheochromocytomas and Paragangliomas - **Maria Luisa Geuß (Germany)**

OC 47: SOX2+ cells in pheochromocytoma and paraganglioma are candidate tumour-initiating stem cells - **Yasmine Kemkem (UK)**

OC 48: Generation of patient-derived in vitro models to unravel medullary thyroid cancer microenvironment and therapy resistance - **Viola Ghiandai (Italy)**

OC 49: Phenotypic transformation of a non-functioning pancreatic neuroendocrine tumour to a hormonally active insulinoma - **Rishi Iyer (UK)**

OC 50: Not All Microcarcinomas Are Low Risk: Identifying RAI Resistance in pT1a Differentiated Thyroid Cancer - **Martyna Borowczyk (Poland)**

H 16.00

Coffee Break & Poster Session 4

Poster Discussants: Chiara Sabbadin | Riccardo Pofi | Dorota Filipowicz

Sunday - September 28

H 10.00 | Oral communications Session 5

Reproduction & Infertility

Moderators: Kristina Saravinovska | Nunzia Verde | Clara Lazzaretti

OC 51: Effects of Modified Release Hydrocortisone on Reproductive Function in Males with Congenital Adrenal Hyperplasia. Insights from CALLIOPE: a multicenter, prospective study –

Davide Ferrari (Italy)

OC 52: Temporal trends in testosterone and luteinizing hormone levels indicate an ongoing resetting of hypothalamic-pituitary-gonadal function in healthy men – **Valentina Griseta (Italy)**

OC 53: Impaired semen quality among previous anabolic androgenic steroids users – **Yeliz Bulut (Denmark)**

OC 54: Role of steroid hormone-binding proteins on the bioactivity of 11-oxygenated androgens – **Jennifer Afrakoma Nyamaah (Belgium)**

OC 55: The role of Obstructive Sleep Apnea Syndrome and Continuous Positive Airways Pressure therapy in the functional hypogonadism of male patients with severe obesity – **Alessandro Amodeo (Italy)**

OC 56: Vascular Erectile Dysfunction (ED): The Intersection Between the Andrologist and the Vascular Surgeon – **Daniele Renda Livraghi (Italy)**

OC 57: A multinational observational study on the clinical characteristics and treatments offered to women with polycystic ovary syndrome (PCOS)-related skin conditions presenting to specialist clinics – **Agatha Chu (UK)**

OC 58: PCOS SEva: Implementing a Digitally-Enhanced, Psychosocially-Informed Model of Care for Women with Polycystic Ovary Syndrome – **Jhanvi Pravesh Sawlani (UK)**

H 11.15 | Plenary Lecture

Moderators: Julia Beck | Maria Francesca Birtolo

Speaker: Roberto Vettor

“The dysfunctional adipose tissue as the main cause of obesity complications”

H 12.00 Awards Session

H 12.30 Congress Closure | LOC | EYES Chairs
