

**Third Annual Update on Medical Oncology
emerging treatment-options in Italy**

New treatments strategies in adult solid tumors: emerging breakthrough data, ongoing enrolling trials in Italy, active open-access programs

Responsabile Scientifico: *Dr. Tommaso Martino De Pas*
Responsabile Oncologia Medica, Humanitas Gavazzeni, Bergamo

22 maggio 2026

Auditorium Villa Elios, Humanitas Gavazzeni, Bergamo

Razionale

This congress has three main objectives, which will be explored in detail for each treated disease

- a) To present the most relevant emerging therapeutic innovations that are likely to change the medical approach in the near future, highlighting the results of the most important trials recently published or presented at major meetings
- b) To report the actively - enrolling clinical trials for referring our patients, with a special focus on Italian active Institutes
- c) To present the open-access programs active in Italy and the practical modalities for submitting requests
